SUMMARY

Results-driven Full Stack Web Developer with 5 years of experience in creating dynamic and scalable web applications. Demonstrated expertise in frontend technologies such as React and Vue, coupled with strong backend proficiency using Node.js, Express and Go. Experienced in Mobile Development with successful projects on iOS and Android using React Native and Flutter. Passionate about staying ahead in the rapidly evolving tech landscape, solving complex problems, and continuous learning.

WORK EXPERIENCE

Information Technologi Developer , DASI   **Jul 2024 - Present**

- Develop and maintain full-stack applications both web and mobile using Vue, Go and Kotlin.
- Analyze system requirements and translate business needs into technical solutions.
- Collaborate with clients to gather requirements and define system workflows.
- Ensure seamless integration and optimal system performance.

Fullstack Web Developer, Simantep   **Feb 2024 - Jun 2024**

- Collaborated with cross-functional teams to define, design, and ship new features.
- Built and optimized database structures and queries using PostgreSQL databases.
- Implemented responsive design and ensured cross-browser compatibility.
- Integrated third-party APIs and services to enhance application functionality.
- Participated in Agile/Scrum development processes, contributing to sprint planning, daily stand-ups, and retrospectives.

Senior Frontend Developer , Seeds   **Jul 2023 - Jan 2024**

- Developed and optimized a company profile website using Next.js and TypeScript, implementing SEO strategies that increased organic search traffic by 20%.
- Led the development of mobile applications for both iOS and Android platforms using React Native, streamlining frontend workflows and code structure for improved efficiency.
- Integrated frontend components with multiple RESTful APIs and collaborated with backend teams to
- integrate mobile apps with microservices, enhancing data synchronization and ensuring seamless functionality across platforms.

Mobile Developer, TaxPrime   **Apr 2023 - Jul 2023**

- Developed a high-performance cross-platform mobile application using Flutter for both iOS and Android, ensuring seamless user experience.
- Integrated the app with Firebase for real-time data synchronization and implemented Google OAuth for secure, streamlined user authentication.
- Collaborated with backend developers to integrate the app with microservices, conducting extensive testing
- and debugging to reduce crash rates by 20% and enhance app stability.

Frontend Developer, KunciCoin
May 2022 - Mar 2023

- Developer and integrated multiple webpages, including kuncicoin.com, kunciplay.com, and community.kuncicoin.com, ensuring a cohesive and engaging user experience.
- Integrated Web3 functionalities, including MetaMask integration, to enable secure blockchain transactions and enhance the platform's decentralization features.
- Implemented responsive design and optimized site performance, resulting in a 15% incrase in user retention
- Collaborated with cross-functional teams to allign frontend development with overall project goals and technical requirements.

React Developer, PT Toward Research Business
Sep 2021 - Jan 2022

- Developer and integrated multiple webpages, including kuncicoin.com, kunciplay.com, and community.kuncicoin.com, ensuring a cohesive and engaging user experience.
- Integrated Web3 functionalities, including MetaMask integration, to enable secure blockchain transactions and enhance the platform's decentralization features.
- Implemented responsive design and optimized site performance, resulting in a 15% incrase in user retention
- Collaborated with cross-functional teams to allign frontend development with overall project goals and technical requirements.

Frontend Developer, CV Inti Multi Solusi
Apr 2021 - Sep 2021

- Developed web and mobile applications using React JS and React Native, ensuring cross-platform compatibility and performance.
- Designed and implemented a Learning Management System (LMS) for an English learning platform, Elingway, enhancing the platform's educational capabilities and user engagement.
- Collaborated with backend developers to integrate APIs, improving data flow and application functionality.
- Worked closely with UI/UX designers to create intuitive and user-friendly interfaces, increasing user satisfaction and retention.

Backend Developer, Anilo
Oct 2019 - Mar 2020

- Developed RESTful APIs using Laravel to support multiple device applications, ensuring robust and scalable backend services.
- Collaborated with front-end developers to integrate APIs, enhancing overall application functionality and user experience.
- Participated in team-based development projects, delivering websites and applications within specified timeframes.
- Conducted database design and optimization, improving data storage and retrieval efficiency.
- Implemented security best practices to protect application data and ensure compliance with industry standards.

EDUCATION

Bachelor of Science in Informatics, UIN Syarif Hidayatullah Jakarta
2021 - Present

- Coursework includes software development, data structures, algorithms, database management, and cybersecurity.
- Engaged in various projects and research activities, enhancing practical skills and theoretical knowledge in informatics.
- Active member of the Informatics Students Association, participating in Kampus Merdeka and some coding competition.

SKILLS

Programming Languages : Javascript (ES6+), Typescript, Go, Python, PHP, Dart, Java, HTML5/CSS3

Databases : MongoDB, PostgreSQL, MySQL, GraphQL

Stack Technologies : React.js, React Native, Next.js, Vue.js, Nuxt.js, Node.js, Express.js, Nest.js, Laravel, Flutter, Kotlin

ADDITIONAL INFORMATION

Languages : Indonesian, English

Certifications : "Certificate of Competence" from BNSP

Soft Skills : Problem Solving, Communication, Team Collaboration, Time Management, Adaptability, Creative
